**Important Information from WCPCAN**

Funding for the Washington Council for Prevention of Child Abuse and Neglect (WCPCAN) was proposed for elimination in the state budget released by the Governor's office in December. During the upcoming months, the Washington State Legislature will consider its own budget priorities.

In spite of the uncertainty inherent in this situation, WCPCAN is committed to moving forward with our programs to strengthen child abuse and neglect prevention in Washington.

We encourage you to take an active role, on behalf of children, in the civic processes available to all citizens.

**Every Child Matters, Every Person Helps!**
